

COURSE TITLE:

# PRIVACY AND DIGNITY

MODULE	MODULE NAME	OBJECTIVE
1	Understanding Privacy and Dignity in Care	To explain what privacy and dignity mean in care work and how protecting space, information, and personal choice helps individuals feel respected and valued.
2	Privacy of Information	To describe how to handle personal & sensitive information safely, and how correct confidentiality practices protect trust, safety, and dignity in care.
3	Principles of Privacy and Dignity in Care and Support	To outline the key principles that guide privacy and dignity, including respecting preferences, supporting decisions, promoting independence, and encouraging self-care.
4	Supporting Personal Care with Dignity	To show how to deliver personal care respectfully by protecting privacy, gaining consent, offering choices, and helping individuals feel safe, comfortable, and valued.
5	Risk Assessment	To explain how risk assessment supports safe decision-making by identifying hazards, evaluating risks, planning control measures, and helping individuals make informed choices.
