

COURSE TITLE:

LEARNING DISABILITY AWARENESS

MODULE	MODULE NAME	OBJECTIVE
1	Introduction to Learning Disability	To understand what learning disability is, how it affects individuals, and how it impacts learning, communication, and independence.
2	Learning Disability VS. Learning Difficulty	To understand the difference between learning disabilities and learning difficulties and how they affect individuals differently.
3	Types of Specific Learning Disabilities	To learn about common types of specific learning disabilities and understand how they affect learning, communication, and daily activities.
4	Causes and Identification	To understand the causes of learning disabilities and recognise the signs and indicators that may help with early identification.
5	Conditions Associated with Learning Disabilities	To learn about common conditions associated with learning disabilities and understand how they may affect health and wellbeing.
6	Diagnosis and Assessment	To understand how learning disabilities are assessed and diagnosed through specialist assessment, observation, and developmental information.
7	Care and Support for Individuals with Learning Disabilities	To understand person-centred approaches and how to provide effective support that promotes dignity, choice, and independence.
8	Meeting a Person's Unique Communication Needs	To understand communication challenges faced by individuals with learning disabilities and learn strategies that support effective communication.
